Silver backed digital tokens

- Silver is accepted as among the most secure forms of investment.
- However, physical storage and security could be a source of hassle for the owner.
- Digital tokens are a good way to invest in Silver without having to worry about storage or security.
- MINDEX is pleased to offer tokenised Silver coins, or fractions thereof, on its exchange platform in collaboration with Global Gold, leveraging its regulated and insured ecosystem and safe custody.

1 Token = 1 Silver coin

Understanding tokenisation

Real World Assets can be tokenized and listed on MINDEX.

Fungible Tokens

Once listed they are available for sale to a global pool of whitelisted investors.

1 Token = 1 Silver coin

About Global Gold Metal X Change (Mauritius) Ltd

In 1992, Global Gold Metal X Change (PTY) LTD was established in South Africa for the manufacturing and distribution of gold & silver related products.

Its Mauritian subsidiary, Global Gold Metal X Change (Mauritius) Ltd, holds a Freeport Certificate issued by the Economic Development Board of Mauritius in 2023.

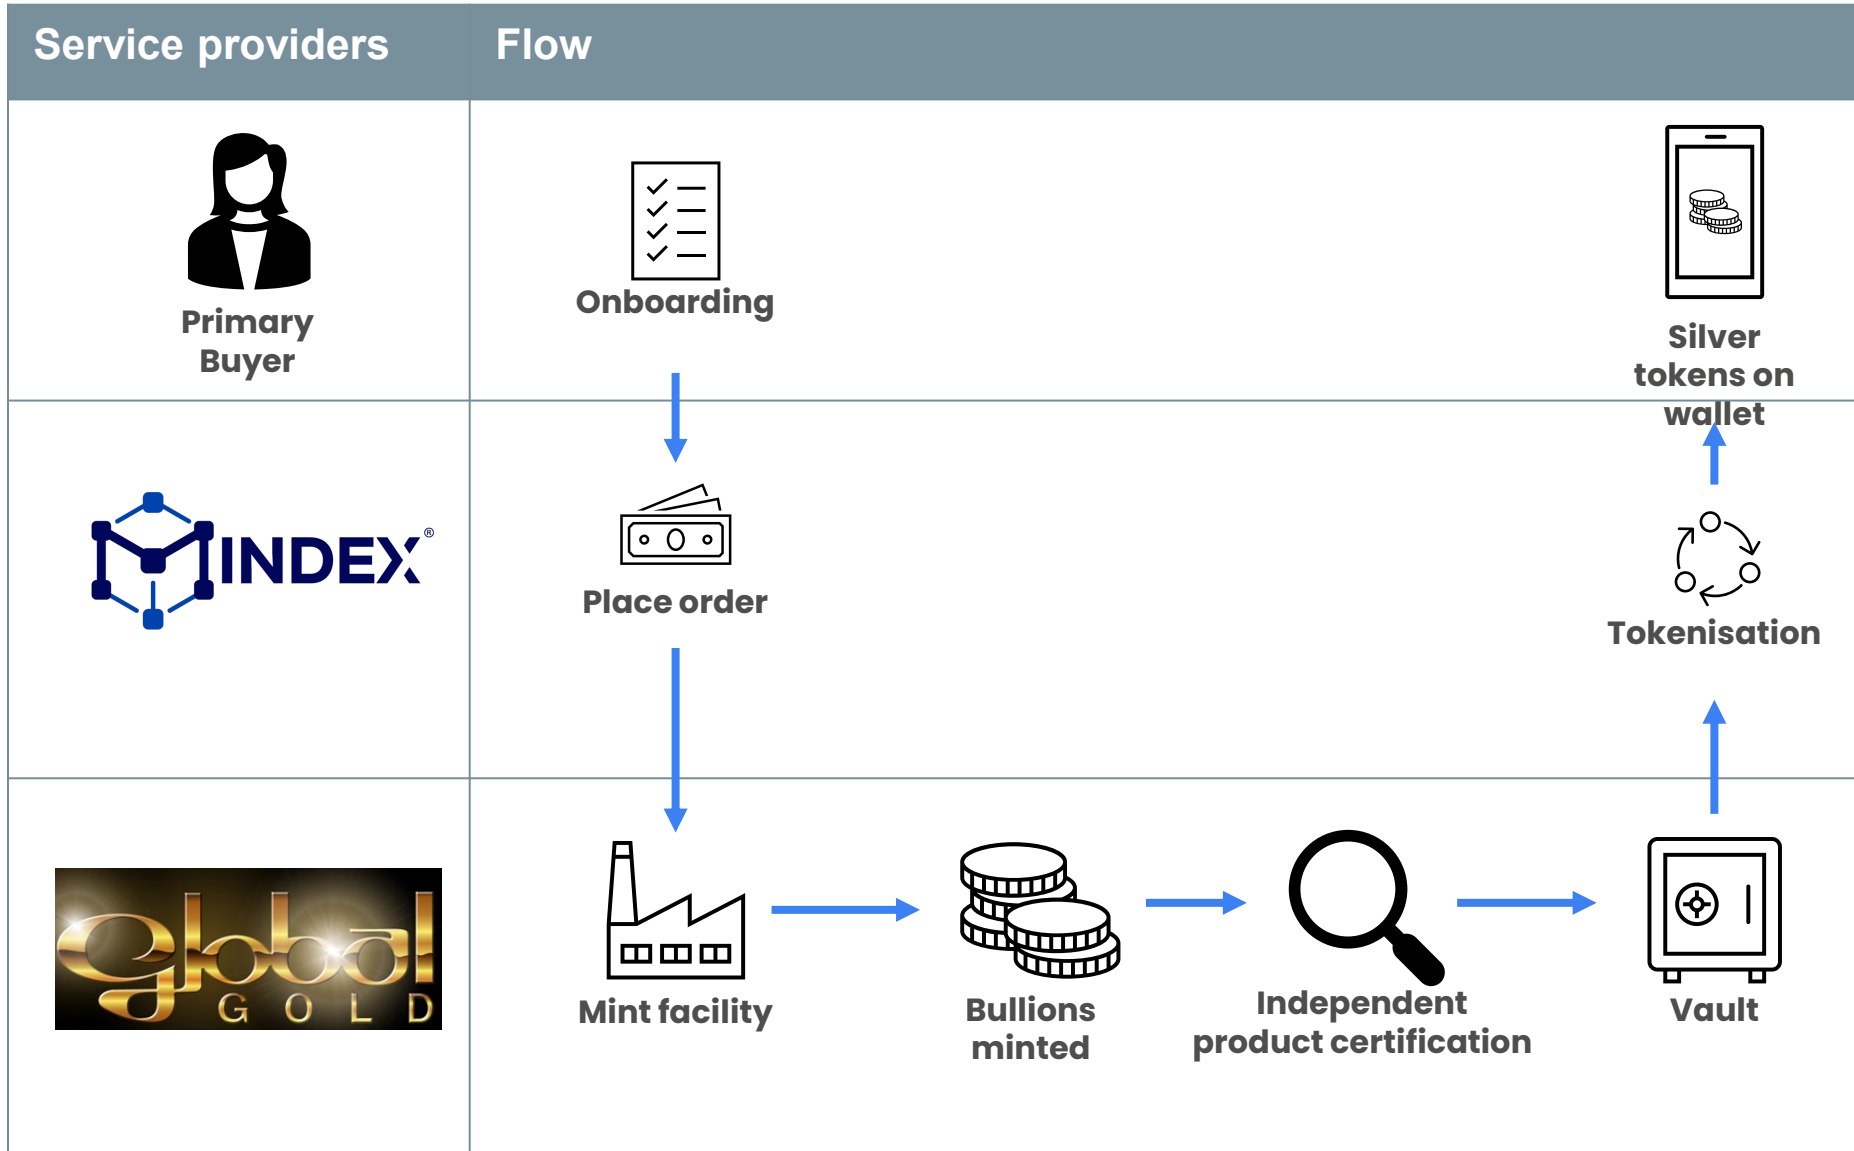

Its operations are regulated pursuant to the Freeport Act 2004, allowing it to carry out, in the Freeport of Mauritius, the following activities:

- Section 3(1): Warehousing and storage
- Section 14: Vault for keeping gold, silver, platinum, precious and semiprecious stones, precious metals, pearls, works of art and collectors' pieces or antiques
- Section 15: Security, courier, assaying or exhibition area, as the case may be, used wholly and exclusively for the items referred to in sub-item (14) above;
- Section 16: Minting of precious metals
- Section 17: Refining of precious metals

Primary issuance: Coins workflow

1. Investor has to register on MINDEX Portal or Blink app.
2. Investor to place an order and submit payment for the number of tokens to be purchased.
3. On the 30th of every month the mint facility processes the number of orders received. The batch produced is submitted for independent verification to the Assay Office.
4. After successful verification, the Silver coin is placed in sealed bags and transferred to a secured vault.
5. MINDEX proceeds with the tokenisation of the equivalent of Silver vaulted and the tokens are transferred to the wallet of the investor.
6. The vault is subject to timely audits by an independent professional firm.
